Lower Bay Dredging - Status

- Army Corps is preparing plans and specs
 - Closely coordinating with City on priority areas
 - Corps budget: ~\$2M
 - City Contribution: \$2.5M (TBD)
 - Estimated cubic yards: 200,000 (~100,000 for POLB)
 - (Total project assuming fully funded: 1.2 million cy, ~\$25M)
- Out to bid: August
- Award: September (before end of federal FY)
 - Reason: Use the funds we have now or risk losing
- Dredging: Late Fall or end of year (near end of Rhine project)

Lower Bay Dredging Priority Areas

POLB is receptive to receiving additional Lower Bay material for fill. Formal request in process.

Other Issues

- **Tidelands Management Committee**
 - Wednesday, June 15, 4:00 – 5:30, OASIS Room 5

 - Next meeting: Wednesday, July 20, 4:00 PM, OASIS

Copper Bottom Paints

- The City's "Clean Sweep" gets a new Non-Biocide bottom paint
 - Thanks for Dave New at Basin Marine and Coastkeeper for assisting with labor and funding
- Paint: Hempasil. (Half older version, half newer version)

Sea Lions

- Postcards sent to mooring and pier permittees
- Harbor Resources will update Council on sea lions at a July Study Session
- Please 'sea lion proof' your pier and vessel.

Attention Mooring and/or Pier Permittee

Sea Lion Ordinance
NBMC 17.25.020 and NBMC 17.50.100

Sea lions generally migrate down the Southern California coast between the months of May and October; are becoming more prevalent in Newport Harbor; and tend to compete for haul out locations by barking day and night causing a nuisance and keeping nearby residents awake.

- According to Newport Beach Municipal Code each permittee is responsible for the deterrent of sea lions from his vessel and/or piers.
- NBMC requires the permittee to take deterrent action within 7 days of notification from the City of Newport Beach at which point the permittee may be subject to fines.
- It is the permittee's responsibility to secure vessels, piers, and appurtenances from sea lion intrusion.
